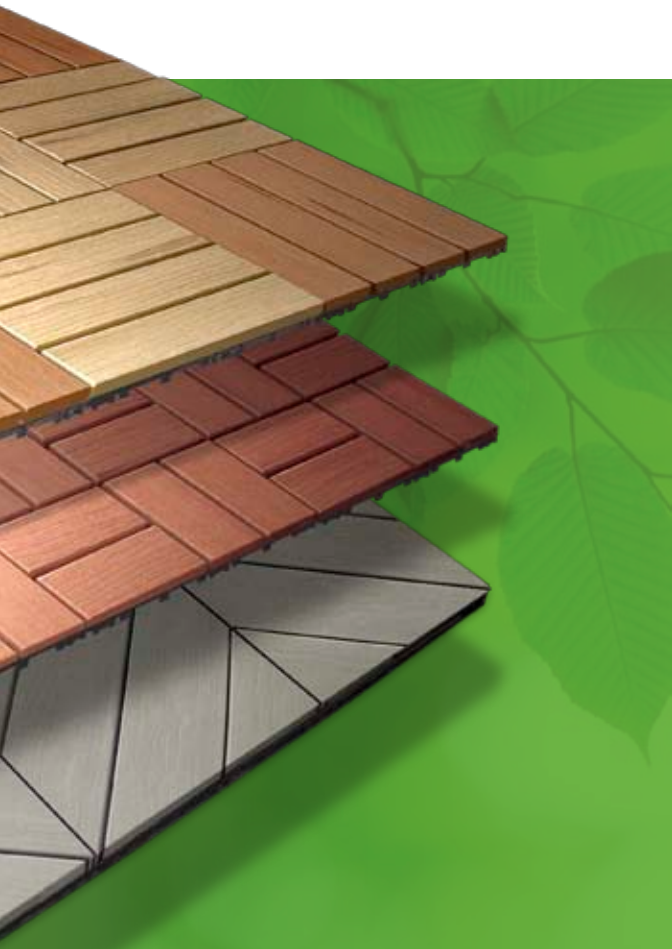
MoistureShield™

EcoShield™ Deck Tiles



EASY TO BUILD.
EASY ON THE EYES.

FEATURES INCLUDE

- Available in 12”x12” and 24”x24” configurations
- Grid pattern for easy layout and versatility
- Easily snap together
- 20-year warranty

developed with **Snap-To™ Technology**

EcoShield™ Deck Tiles, an innovative composite decking product, are literally a snap to put together. Unique grid patterns allow for ease of layout and ultimate versatility – resulting in the creation of beautiful exteriors. Ideal for surface applications on patios, verandas, rooftops and virtually any level surface, the tiles don’t require any special tools – it’s as simple as snapping them together.

Made with 90% recycled content, EcoShield deck tiles do not require staining, painting or sealing. And, they retain their rich color, unlike other composite decking materials that show a greater degree of weathering.

Creating an EcoShield deck is an easy way to build the beautiful outdoor space you’ve always wanted.

Available in four colors:

Special Order colors:

MoistureShield™
EcoShield Deck Tiles

BEAUTIFUL FOR THE ENVIRONMENT.

EcoShield™ Deck Tiles use AERT's innovative processing technologies, encapsulating recycled wood fibers in recycled polyethylene plastic. Non-toxic, and with the environment in mind, the composite material on the deck tiles is made with:

- 30% post-consumer recycled content

- 60% pre-consumer recycled content
